

Tax Credit Certificate (Tax Year 201*)

As part of the American Recovery and Reinvestment Act, tax incentives for homeowners and businesses are available to help encourage the use of renewable energy technologies like geothermal heat pumps. Tax incentives for ENERGY STAR® qualified residential geothermal heat pumps are available until the year 2016.

The law offers a one-time tax credit of up to 30% of the total investment for all ENERGY STAR qualified residential geothermal heat pump installations. To qualify for the rebate, the system must meet or exceed ENERGY STAR requirements and be installed after January 1, 2009 (After December 01, 2009 for water-to-water units). Please complete the information below, and keep this certificate for your records. Consult your tax advisor for further information.
